Message from the Principal:

Dear Parents,

Book Week Dress Up

It was great to see all the amazing costumes on Monday for our annual dress up day including the Kinder students. The students took part in buddy activities in the morning session which included reading the play Little Red Riding Hood, searching for Where's Wally and alphabet activities with the book Animalia.

5/6 Camp to Queenscliff

Forms were sent home last week with details. Thank you to those that have already returned the \$50 deposit. Included was an expression of interest form for parent volunteers please consider whether you would be interested in attending.

Staffing

Mr Collins has officially notified us of his retirement beginning in Term 4. He has had a long teaching career with the majority of time being at Tawonga Primary School. We will be planning an official retirement function for him and will notify the community of this when details are known.

This now creates an official vacancy and this position is required to be advertised following Department processes. The position is currently online. The process takes 2 weeks for advertising, at least a week for short listing and interviewing and then there is a 2 weeks appeal period process for unsuccessful applicants. As soon as I am able to confirm the successful applicant I will notify the school community. This person will begin employment at the beginning of Term 4.

Assembly Friday 3pm

Book Covering

Thank you to Anne Stanmore who has been busy again covering new books for us.

Skiing

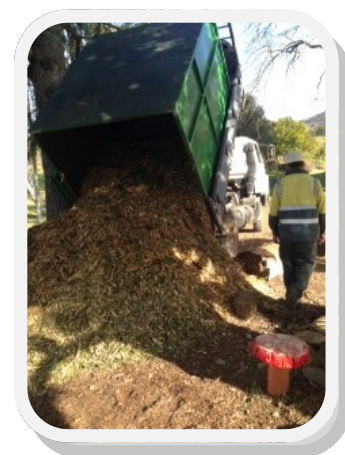

We have been very fortunate to be able to get our 4 ski days in this year. Thank you to all those parents who have volunteered to assist with this program we can not run it without your support. The students have had a ball and their skill level has increased dramatically.

Mulch for our Garden

Thank you to Ben from Trutree Care in Mt Beauty for looking after us again with a free load of mulch for our garden beds.

On Wednesday students in Kellie's and Mrs Franzke's classes experimented with forces. A number of activities were set out including balloons, paper planes, water, play dough, sand, cars and more. Students had the chance to trial each activity and experiment with the pushes and pulls of water, air and friction as a basis for a science sequence on forces in the upcoming weeks.
